O Llosevil identification of the supervise							
2. Hazard identification of the product	2. Hazard identi						

2.1. Classification of the substance or mixture Flam. Liq. 3;H226 Skin Irrit. 2;H315 Eye Irrit. 2;H319 Aquatic Acute 2;H401

2.2. Label elements Using the Toxicity Data listed in section 11 & 12 the product is labelled as follows.

H226 Flammable liquid and vapour.

H315 Causes skin irritation.

H319 Causes serious eye irritation.

H401 Toxic to aquatic life.

P210 Keep away from heat / sparks / open flames / hot surfaces - No smoking.

P235 Keep cool.

P240 Ground / bond container and receiving equipment.

P241 Use explosion-proof electrical / ventilating / light / equipment.

P242 Use only non-sparking tools.

P243 Take precautionary measures against static discharge.

P273 Avoid release to the environment.

P280 Wear protective gloves / eye protection / face protection.

P302+352 IF ON SKIN: Wash with soap and water.

P303+361+353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

P305+351+338 IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.

P337+313 If eye irritation persists: Get medical advice / attention.

P362 Take off contaminated clothing and wash before reuse.

P370 In case of fire: Use water spray, fog, or regular foam..

P403+233 Store in a well ventilated place. Keep container tightly closed.

P501 Dispose of contents / container in accordance with local / national regulations.

3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

4. First aid measures

Ingredi	ent/Chemical Designations	Weight %
Styrene		25 - 50
CAS Number:	0000100-42-5	

#### 4.1. Description of first aid measures

4.1. Description of first	4.1. Description of first aid measures					
General	Remove contaminated clothing and shoes. Get medical attention immediately. Wash clothing before reuse. Thoroughly clean or destroy contaminated shoes.					
Inhalation	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.					
Eyes	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.					
Skin	In case of contact, immediately flush skin with soap and plenty of water. Get medical attention immediately.					
Ingestion	If swallowed, immediately contact Poison Control Center at 1-800-854-6813. DO NOT induce vomiting unless instructed to do so by medical personnel. Never give anything by mouth to an unconscious person.					
4.2. Most important syn	nptoms and effects, both acute and delayed					
Overview	NOTICE: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Avoid contact with eyes, skin and clothing.					
Inhalation	Harmful if inhaled. Causes nose and throat irritation. Vapors may affect the brain or nervous system causing dizziness, headache or nausea.					
Eyes	Causes severe eye irritation. Avoid contact with eyes.					
Skin	Causes skin irritation. May be harmful if absorbed through the skin.					
Ingestion	Harmful if swallowed. May cause abdominal pain, nausea, vomiting, diarrhea, or drowsiness.					

Chronic effects	
	5. Fire-fighting measures
5.1. Extinguishing med	ia
Appropriate Extinguishing Methods	Water in form of fog, Co2, foam or dry chemical dust.
Inappropriate Extinguishing Methods	Direct water spray into fire
Specific Hazards	Can liberate toxic fumes or gases during the burning. For decomposition see section 10.
5.2. Special hazards ar	ising from the substance or mixture
Special Methods	Evacuate the area and to fight the fire at a safe distance upwind. Use water in fog to cool containers near the fire. Keep runoff from entering sewer. Extinguishing water must be disposed according to local legislation.
5.3. Advice for fire-fight	ters
Firefighter Protection	In fire case, to use personal respiratory device and suits for protection.
	6. Accidental release measures
6.1. Personal precautio	ns, protective equipment and emergency procedures
Personal precautions	ELIMINATE ALL IGNITION SOURCES (no smoking, flares, sparks or flames in immediate area). Use only non-sparking equipment to handle spilled material and absorbent. Do not touch or walk through spilled material.
Public Safety	Call Suatrans Cotec 0800 7071 767 or 0800 7077 022 or 0800 17 2020 or 55*2*7500 (24 hr) for emergency response. Isolate spill or leak area immediately for at least 25 to 50 meters in all directions. Keep unauthorized personnel away. Stay upwind. Keep out of low areas. Ventilate closed spaces before entering. LARGE SPILLS: Consider initial downwind evacuation for at least 300 meters. Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas. A vapor suppressing foam may be used to reduce vapors. Absorb or cover with dry earth, sand, or other non-combustible material and transfer to containers. Use non-sparking tools to collect absorbed material.
6.2. Environmental pre-	cautions
Environmental Precations	Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas. A vapor suppressing foam may be used to reduce vapors. Absorb or cover with dry earth, sand, or other non-combustible material and transfer to containers. Use non-sparking tools to collect absorbed material.
6.3. Methods and mate	rial for containment and cleaning up
Clean Up Method	Cover with sand or other non-cumbustible material. Transfer absorbed material with a non-sparking tool.
	7. Handling and storage
7.1. Precautions for saf	fe handling
Be aware of the precau Avoid contact with the e precautions referred to No smoking, drinking o All the ignition sources manufacturing and app	vith care in order to avoid damage and spillage. titions referred to on the label. eyes and the skin. Avoid swallowing of vapor and the pulverizations. Be aware of the on the label. Use personal protection equipment according to the section 8. r eating in the application areas. (hot surfaces, sparks, unprotected flames, etc.) must be excluded from the areas of lication. The storage areas, the preparation and the application must be well ventilated.

The product can be carried electrostatically. Always use grounding cables when transferring solvents or product. The operators must use adequate outfits which shall not develop static current. (at least 60% of natural fiber) and anti-static shoes.

Solvents based products: The solvent vapors are heavier than the air and can concentrate on the floor and explosive mixtures may be formed with the air .

Water based products: It does not require special cares for not being inflammable or explosive. Use only the indicated personal protection equipments.

7.2. Conditions for safe storage, including any incompatibilities Store between 40-100F (4-38C).

	8. Exposure controls and personal protection				
8.1. Control parameters					
	Exposure				
CAS No. Ingredient Source Value					
0000100-42-5 Styrene ACGIH 20 ppm TWA40 ppm STEL					
		Brazil	78 ppm TWA LT: 328 mg/m3 TWA LT

### 8.2. Exposure controls

Respiratory Protection	Select equipment to provide protection from the ingredients listed in Section 3 of this document. Ensure fresh air entry during application and drying. If you experience eye watering, headache or dizziness or if air monitoring demonstrates dust, vapor, or mist levels are above applicable limits, wear an appropriate, properly fitted respirator (NIOSH approved) during and after application. Follow respirator manufacturer's directions for respirator use.				
Eye and face protection	protection from ex Depending on the and/or head and	n eyes. Protective equipment should be selected to provide posure to the chemicals listed in Section 8 of this document. e site-specific conditions of use, safety glasses, chemical goggles, face protection may be required to prevent contact. The equipment ly cleaned, or discarded after each use.			
Skin and body protection	chemicals listed in conditions of use	nent should be selected to provide protection from exposure to the In Section 8 of this document. Depending on the site-specific protective gloves, apron, boots, head and face protection may be int contact. The equipment must be thoroughly cleaned, or discarded			
Engineering Controls	Prevent build-up cross-ventilation.	of vapors by opening all windows and doors to achieve			
Special Precations	Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Use good personal hygiene practices. Wash hands before eating, drinking, using toilet facilities, etc. Promptly remove soiled clothing and wash clothing thoroughly before reuse. Shower after work using plenty of soap and water.				
	9. PI	nysical and chemical properties			
Appearance		Colourless Liquid			
Odour threshold		Not Measured			
рН		No Established Limit			
Melting point / freezing	point	Not Measured			
Initial boiling point and	boiling range	141 (°C) 285 (°F)			
Flash Point		28 (°C) 82 (°F)			
Evaporation rate (Ethe	r = 1)	Not Measured			
Flammability (solid, gas)		Not Applicable			
Upper/lower flammabili limits	ity or explosive	Lower Explosive Limit: 1.1			
		Upper Explosive Limit: No Established Limit			
Vapour pressure (Pa)		Not Measured			
Vapor Density		Heavier than air			
Specific Gravity		1.04			
Solubility in Water		Not Measured			
Partition coefficient n-o Kow)	ctanol/water (Log	Not Measured			
Auto-ignition temperatu	ure	Not Measured			
Decomposition temperature Not Measured					
Viscosity (cSt) No Established Limit Not Measured					
VOC %		Refer to the Technical Data Sheet or label where information is available.			

10. Stability and reactivity
10.1. Reactivity
Keep away from alkaline or strong strong acid to prevent probable exothermal reactions.
10.2. Chemical stability
This product is stable
10.3. Possibility of hazardous reactions
Dangerous Polymerization will not occur. Heat and vapors in excess can be generated when inproperly used
10.4. Conditions to avoid
Keep away from alkaline or strong strong acid to prevent probable exothermal reactions. Strong oxidizing agents
10.5. Incompatible materials
Strong oxidizing agents
10.6. Hazardous decomposition products
Can liberate toxic vapors in the welding process. The vapors can produce Dioxide and Monoxide of Carbon.
11. Toxicological information

Acute toxicity

NOTICE: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. No additional information provided for this product. See Sections 3 and 8 for chemical specific data.

12.1. Toxicity

12. Ecological information

The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 199/45/CE and is classified according to the same as for the environment. For details, see sections 8 and 11. There are no data available on the product. Avoid contamination of drains or watercourses

NBR 9735: Set of equipments for Emergency in the Road Transport of Hazardous Products Procedures. All ingredients of this product are listed on the TSCA (Toxic Substance Control Act) Inventory or are not required to be listed on the TSCA Inventory.

WHMIS Classification B2 D2B

#### 16. Other information

The information contained in this Material Safety Data Sheet (MSDS) has the purpose of being a description of the product safety requirements, which were obtained from the literature and current legislation specific about raw materials/ingredients. Thus, the accuracy of the data contained herein is not, expressly or implicitly, assured by the Manufacturer. The product shall not be used for purposes other than the ones specified by the Manufacturer. The user is always liable for taking all required measures to comply with the provisions in this MSDS, as well as with the requirements expressed in the regulations and effective legislation.
