

Tru-Glaze-WB 4015

Waterborne epoxy block filler

Tru-Glaze-WB[®] 4015 is a high performance, two component, chemically cured waterborne epoxy block filler that provides superior performance over single component block fillers. While suitable for use on interior and exterior porous concrete block, it is also suitable for use on CMU wall surfaces.

Tru-Glaze-WB 4015 is ideal for filling walls in high moisture areas such as shower rooms, boiler rooms, car washes and food and pharmaceutical processing facilities. It can be topcoated with a wide variety of Devoe[®] coatings solvent based and waterborne finish coats.

- Volatile organic compound (VOC) compliant in OTC and SCAQMD
- Provides excellent foundation over masonry substrates for finish coats
- Superior filling
- Low odor
- Highly resistant to structural moisture and hydrostatic pressures
- Fast dry and early recoat properties
- Excellent aged recoatability
