

Alstom Wind Towers

Track record 2014

Location of project

Turkey

Products/system used

Area 1 - Internal System
for Structural Steel

Interzinc® 52 @ 60µm (2 mils)

Intergard® 345 @ 100µm (4 mils)

Area 2 - External system
for structural steel

Interzinc® 52 @ 60µm (2 mils)

Intergard® 345 @ 115µm (5 mils)

Interthane® 990 @ 75µm (3 mils)

Project owner

Alstom Wind Towers

Applicator

Gestamp Wind Steel

ISO12944 environment

C4 Semi industrial (medium durability)

Project size

9,000m² (96,875ft²)
