#### Safety Data Sheet CATHACOAT 304L POWDER PART B

Bulk Sales Reference No.: SDS Revision Date: SDS Revision Number:

Sales Order: {SalesOrd} DC304P0297 04/14/2015 A0-

# X.International.

2. Hazard identif	ication of the product			
Fax No.	(800) 631-7481			
International Paint	(800) 589-1267			
Customer Service				
Poison Control Center	(800) 854-6813			
International Paint	(713) 682-1711			
CHEMTREC (USA)	(800) 424-9300			
Emergency				
	Houston Texas 77091			
	6001 Antoine Drive			
Company Name	International Paint LLC			
1.3. Details of the supplier of the safety data sheet				
Application Method	See Technical Data Sheet.			
1.2. Relevant identified uses of the substance or mixt Intended Use	See Technical Data Sheet.			
1.2 Belevant identified uses of the substance or mixt	ure and uses advised against			
Bulk Sales Reference No.	DC304P0297			
Product Identity	CATHACOAT 304L POWDER PART B			
1.1. Product identifier				
1. Identification of the preparation and company				

2.1. Classification of the substance or mixture

Aquatic Chronic 1;H410 Very toxic to aquatic life with long lasting effects.

#### 2.2. Label elements

Using the Toxicity Data listed in section 11 & 12 the product is labelled as follows.

H410 Very toxic to aquatic life with long lasting effects.

P273 Avoid release to the environment.

P391 Collect spillage.

P501 Dispose of contents / container in accordance with local / national regulations.

HMIS Rating Health: 1 Flammability: 1

Reactivity: 1

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

Ingredient/Chemical Designations		Weight % GHS Classification		Notes
Zinc CAS Number:	0007440-66-6		Water react. 1;H260 Pyr. Sol. 1;H250 Aquatic Acute 1;H400 Aquatic Chronic 1;H410	[1]
Zinc oxide CAS Number:	0001314-13-2		Aquatic Acute 1;H400 Aquatic Chronic 1:H410	[1][2]

[1] Substance classified with a health or environmental hazard.

[2] Substance with a workplace exposure limit.

[3] PBT-substance or vPvB-substance.

\*The full texts of the phrases are shown in Section 16.

4.1. Description of first aid measures	

4. First aid measures

4.1. Description of mat	ala medaures
General	Remove contaminated clothing and shoes. Get medical attention immediately. Wash clothing before reuse. Thoroughly clean or destroy contaminated shoes.
Inhalation	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.
Eyes	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.
Skin	In case of contact, immediately flush skin with soap and plenty of water. Get medical attention immediately.
Ingestion	If swallowed, immediately contact Poison Control Center at 1-800-854-6813. DO NOT induce vomiting unless instructed to do so by medical personnel. Never give anything by mouth to an unconscious person.
4.2. Most important syr	nptoms and effects, both acute and delayed
Overview	Avoid contact with eyes, skin and clothing.
Inhalation	Harmful if inhaled. Causes nose and throat irritation.
Eyes	Causes severe eye irritation. Avoid contact with eyes.
Skin	Causes skin irritation. May be harmful if absorbed through the skin.
Ingestion	Harmful if swallowed. May cause abdominal pain, nausea, vomiting, diarrhea, or drowsiness.
Chronic effects	

5. Fire-fighting measures	

5.1. Extinguishing media

SMALL FIRES: DO NOT USE WATER, FOAM, OR CO2. Dousing metallic fires with water may generate hydrogen gas, an extremely dangerous explosion hazard, particularly if fire is in a confined area. Use DRY sand, graphite powder, dry sodium chloride based extinguishers, G-1 or Met-L-X powder. Confining or smothering metal fires is preferable rather than applying water. Move containers from fire area if you can do so without risk.

5.2. Special hazards arising from the substance or mixture

May react violently or explosively on contact with water. Material may be transported in flammable liquids. May be ignited by friction, heat, sparks, or flames. May burn with intense heat. Dust or fumes may form explosive mixtures in air. Containers may explode when heated. May re-ignite after fire is extinguished.

5.3. Advice for fire-fighters

Cool closed containers exposed to fire by spraying them with water. Do not allow run off water and contaminants from fire fighting to enter drains or water courses. 170

ERG Guide No.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

ELIMINATE ALL IGNITION SOURCES (no smoking, flares, sparks or flames in immediate area). Do not touch or walk through spilled material. Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas. Use non-sparking equipment to collect spilled material and transfer to containers for later disposal. DO NOT GET WATER INSIDE CONTAINERS.

6.2. Environmental precautions

Do not allow spills to enter drains or watercourses.

6.3. Methods and material for containment and cleaning up

CALL CHEMTREC at (800)-424-9300 for emergency response. Isolate spill or leak area immediately for at least 25 to 50 meters (80 to 160 feet) in alldirections. Keep unauthorized personnel away. Stay upwind.

#### 7. Handling and storage

7.1. Precautions for safe handling

Handling

Do not breathe dust.

Finely divided powders are potentially explosive when suspended in air. Isolate from heat, sparks, electrical equipment and open flame.

In Storage Keep away from heat, sparks and flame.

7.2. Conditions for safe storage, including any incompatibilities

Store between 40-100F (4-38C).

Avoid contact with eyes, skin and clothing.

Strong oxidizing agents.

Do not smoke. Extinguish all flames and pilot lights, and turn off stoves, heaters, electric motors and other sources of ignition during use and until all vapors are gone.

7.3. Specific end use(s) Close container after each use. Wash thoroughly after handling.

	8. Exposure controls and personal protection

#### 8.2. Exposure controls

Respiratory	Select equipment to provide protection from the ingredients listed in Section 3 of this document. Ensure fresh air entry during application and drying. If you experience eye watering, headache or dizziness or if air monitoring demonstrates dust, vapor, or mist levels are above applicable limits, wear an appropriate, properly fitted respirator (NIOSH approved) during and after application. Follow respirator manufacturer's directions for respirator use. FOR USERS OF 3M RESPIRATORY PROTECTION ONLY: For information and assistance on 3M occupational health and safety products, call OH&ESD Technical Service toll free in U.S.A. 1-800-243-4630, in Canada call 1-800-267-4414. Please do not contact these numbers regarding other manufacturer's respiratory protection products. 3M does not endorse the accuracy of the information contained in this Material Safety Data Sheet.
Eyes	Avoid contact with eyes. Protective equipment should be selected to provide protection from exposure to the chemicals listed in Section 3 of this document. Depending on the site-specific conditions of use, safety glasses, chemical goggles, and/or head and face protection may be required to prevent contact. The equipment must be thoroughly cleaned, or discarded after each use.
Skin	Protective equipment should be selected to provide protection from exposure to the chemicals listed in Section 3 of this document. Depending on the site-specific conditions of use, protective gloves, apron, boots, head and face protection may be required to prevent contact. The equipment must be thoroughly cleaned, or discarded after each use.
Engineering Controls	Depending on the site-specific conditions of use, provide adequate ventilation.
Other Work Practices	Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Use good personal hygiene practices. Wash hands before eating, drinking, using toilet facilities, etc. Promptly remove soiled clothing and wash clothing thoroughly before reuse. Shower after work using plenty of soap and water.

9. Physical and chemical properties		
Appearance	Coloured Solid	
Odour threshold	Not Measured	
рН	No Established Limit	
Melting point / freezing point	Not Measured	
Initial boiling point and boiling range	No Established Limit (°C) No Established Limit(°F)	
Flash Point	No Established Limit (°C) No Established Limit(°F)	
Evaporation rate (Ether = 1)	Not Measured	
Flammability (solid, gas)	Not Applicable	
Upper/lower flammability or explosive limits	Lower Explosive Limit: No Established Limit	
	Upper Explosive Limit: No Established Limit	
vapor pressure (Pa)	Not Measured	
Vapor Density	Heavier than air	
Specific Gravity	7.10	

Partition coefficient n-octanol/water (Log<br/>Kow)Not MeasuredAuto-ignition temperatureNot MeasuredDecomposition temperatureNot MeasuredViscosity (cSt)No Established Limit Not MeasuredVOC %Refer to the Technical Data Sheet or label where information is<br/>available.

10. Stability and reactivity

No data available 10.2. Chemical stability This product is stable and hazardous polymerization will not occur. Not sensitive to mechanical impact. Excessive heat and fumes generation can occur if improperly handled. 10.3. Possibility of hazardous reactions No data available 10.4. Conditions to avoid No data available 10.5. Incompatible materials Strong oxidizing agents. 10.6. Hazardous decomposition products May react violently or explosively on contact with water. Material may be transported in flammable liquids. May be ignited by friction, heat, sparks, or flames. May burn with intense heat. Dust or fumes may form explosive mixtures in air. Containers may explode when heated. May re-ignite after fire is extinguished.

11. Toxicological information

Zinc oxide - (1314-13-2)	1.10, Oncorhynchus	0.098, Daphnia	0.042 (72 hr), Pseudokirchneriella
	mykiss	magna	subcapitata

12.2. Persistence and degradability
No data available
12.3. Bioaccumulative potential
Not Measured
12.4. Mobility in soil
No data available
12.5. Results of PBT and vPvB assessment
This product contains no PBT/vPvB chemicals.
12.6. Other adverse effects
No data available

13. Disposal considerations

13.1. Waste treatment methods

Do not allow spills to enter drains or watercourses.

Dispose of in accordance with local, state and federal regulations. (Also reference RCRA information in Section 15 if listed).

14. Transport information					
14.1. UN number		Not Regulated			
14.2. UN proper shipping nar	. UN proper shipping name		ZINC DUST (NOT HAZARDOUS BY TESTING IN ACCORDANCE WITH UN MANUAL OF TESTS AND CRITERIA)		
14.3. Transport hazard class	(es)			,

	16. Other information

The information and recommendations contained herein are based upon data believed to be correct. However, no guarantee or warranty of any kind, expressed or implied, is made with respect to the information contained herein. We accept no responsibility and disclaim all liability for any harmful effects which may be caused by exposure to our products. Customers/users of this product must comply with all applicable health and safety laws, regulations, and orders.

The full text of the phrases appearing in section 3 is:

H250 Catches fire spontaneously if exposed to air.H260 In contact with water releases flammable gases which may ignite spontaneously.H400 Very toxic to aquatic life.H410 Very toxic to aquatic life with long lasting effects.

This is the first revision of this SDS format, changes from previous revision not applicable.
