

# 8845 is a surface tolerant epoxy primer finish

- For use over power cleaned and rusted surfaces
- High build in a single coat
- Suitable for ferrous and non-ferrous substrates such as Aluminium and Stainless steel

When surface preparation is difficult and you don't want to compromise on performance, our 8845 has the tolerance you need.

## Typical end uses

In an appropriate scheme 8845 is typically used in the following maintenance scenarios:

Environment	No of coats	Durability		
		Low	Med	High
C2 Outdoor Low corrosive	1 coat	✓		
C2 Outdoor Low corrosive	2 coats		✓	
C3 Outdoor Medium corrosive	2 coats	✓		
C4 Outdoor High corrosive	2 coats	✓		

## Availability

Available in key locations, 8845 is manufactured to high standards of consistency and quality, and is qualified to local standards.
